

Service Name: Renewal of Certificate for Use of Boiler under The Boilers Act, 1923

Brief about the service: The Boilers Act, 1923, in India, mandates the inspection, registration, and renewal of boilers to ensure compliance with safety standards. Upon successful inspection of a new boiler, a certificate is issued by the inspecting authority, validating the boiler's use for a specified period. Upon its expiration, the boiler owner must apply for renewal, which calls for another round of inspection. If approved, a new certificate is furnished. The Act is under the aegis of the Central Boilers Board, with fees and procedures determined by respective state governments.
